# SPINMASTER

## THE FIRST DRILL PIPE SPINNER

Pioneers in drill pipe spinning technology, Hawk Industries has 35 years of experience in manufacturing and testing spinning wrenches. Our experience, along with input from drilling contractors around the world, led to the introduction of the SPINMASTER, one of the fastest, safest, and most efficient drill pipe spinners on the market today. Available in pneumatic or hydraulic models in two sizes, the SPINMASTER features our field-proven gripping system, along with a wide range of performance enhancements.

- High torque output of up to 2272 ft. lbs.
- Compact design is lighter than comparable tools, helping to reduce crew fatigue and increase safety
- Quick pin releases allow easy adjustment for different pipe sizes
- Externally mounted bearings with removable caps for ease of maintenance
- Roller-type chain eliminates slippage, extends life and lowers maintenance costs

## ***No Compromises***

Quality or economy? Innovation or reliability? Customer service or global reach?  
These are the tradeoffs most manufacturers ask you to make. Not Hawk Industries.

We believe you deserve to have it all, and we deliver it.

We manufacture drilling tools for the oil and gas industry. Period. For 50 years now.

We focus on a select group of customers, each a significant portion of our business.

So when we say your total satisfaction with our product, our service and our responsiveness is important to us, you know it's true. Hawk designs, manufactures and services 100% of the equipment we sell. From our agents, distributors, and from our original location in California, we stock parts for every model we've ever sold, ready for immediate shipment anywhere in the world.

Of course you can count on our equipment to perform, with the confidence that our engineering remains at the forefront of innovation. We hold numerous international patents for product innovations, like our self-energizing wrench technology.

Practicality. Dependability. Cost-effective pricing. Lifetime support. Hawk Industries.

The obvious choice.
